Joy of learning...

Bright Kid Montessori House[®], born in 2007...

has blossomed into a big family of many pre-schools across India, following an exclusive pre-school program researched, designed and developed for early-childhood education.

With an ambience of a happy, happening & a colourful environment, with the infrastructure of having abundant Montessori materials, advance teaching aids like digital smart class at pre-school level, with teachers having the zeal to work with young children and through sheer dedication of entire Bright Kid team towards developing children, in these 10 years Bright Kid Montessori House[®] has earned such huge customer validation. All pre-schools having academic partnership with Bright Kid Montessori House[®] can avail all curriculum and child development programs, teachers training & operating standards of Bright Kid Montessori House[®].

***“Our goal is to see
a happy, secure child
who is strong in body,
mind, spirit and
communication.”***

- The Bright Kid
Montessori House
Team

- Helping the child develop socially.
- Helping the child to develop intelligence and imagination.
- Assisting the child in building good listening and concentration skills.
- Helping the child to develop a high sense of confidence.
- Develop self esteem and positive attitude of the child.
- Developing habits of initiative and persistence in the child.
- Initiating inner security, self-discipline and a sense of order in the child.

OUR VISION

Our vision is to be the best and most adorable in the world of Preschool education.

OUR MISSION

Our mission is to unleash the potential of the child and open the door of all future possibilities for the child by giving our love, care, special training and early childhood education using most effective learning methods and world class Montessori materials, providing healthy environment, leveraging the most advanced teaching technology & tools and drawing supports from the best of preschool trained teachers.

OUR PHILOSOPHY

The main philosophy of Bright Kid Montessori House is to provide an ideal pre-school educational and holistic developmental programmes those support our children to muddle through the advance world of today. We work with an ardent zeal to achieve this for an all round development of the child.

We offer freedom to children to choose, to speak, to ask, to move and to play as per their own pace of developments and likings. We believe **“Adding Knowledge is Creating Potential... Applying Knowledge is the True Power.”** Our activity based learning approach not only makes any learning long lasting but also enhances child's ability to apply the knowledge.

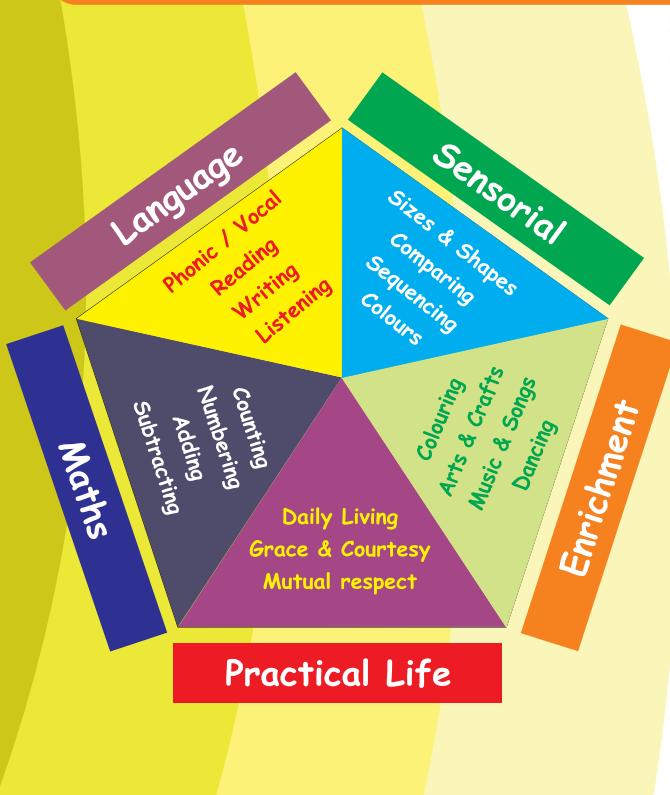

We, at Bright Kid Montessori House, aim to give each child - the best foundations for achieving success throughout their life.

"Children are human beings to whom respect is due, superior to us by reason of their innocence and of the greater possibilities of their future."

**-Dr. Maria Montessori,
(1870-1952)**

MONTESSORI APPROACH

Developing children through scientifically designed hands on activities.

Dr. Maria Montessori, born in 1870, was the first woman to practise medicine in Italy, having graduated from the Faculty of Medicine at the University of Rome in 1896. As a physician, Dr. Montessori was in touch with young children and became profoundly interested in their development. Through careful and exhaustive scrutiny, she realised that children construct their own personalities as they interact with their environment. She also observed the manner in which they learnt as they spontaneously chose and worked with the auto didactic materials she provided.

It is a view of the child as one who is naturally eager for knowledge and capable of initiating learning in a supportive, thoughtfully prepared learning environment. It is an approach that values the human spirit and the development of the whole child—physical, social, emotional & cognitive.

Academic

BRIGHT KID IS ALWAYS STEP AHEAD

Montessori Activities

This is a hands-on approach using scientifically designed special material that generate creative ideas in the absorbent minds of children through their exploration of many possibilities as they perform Montessori activities. This has 5 areas :

- **Exercises of Practical Life**
- **Sensorial**
- **Language**
- **Maths**
- **Enrichment**

Classroom Activities

We prepare our children in their regular class activities through various worksheets, pattern writing, maths drawing & colouring, hand writing & class interactions etc. This is the traditional way of learning.

Activities

WITH ACTIVITY BASED LEARNING OFFERING

Interactive Smart Class Activities

Learning has to be interactive and fun filled. We are also pioneer in the preschool industry to deploy futuristic technology led digital / multimedia resources, probably the best of class / age appropriate Interactive digital resources at pre-school level.

Thematic Activities (Story Telling)

Small children love to think and imagine. This not only strengthens their creative thinking but also fosters conversion of 'thoughts' to 'feelings'. Feelings are better sensed and remembered forever. Our thematic teaching covers various age appropriate topics and stories for children. It is a medium to inculcate moral values, like sharing, respecting & caring, etc. among children.

EXTRA CURRICULAR ACTIVITIES

AT BRIGHTKID
MONTESSORI HOUSE
EXTRA CURRICULAR ACTIVITIES
NURTURE THE
MULTIPLE INTELLIGENTCE
OF THE CHILDREN

When your child is preschool or kindergarten age, he/she begins to master many basic movements and it's the right time for them to put those movements to use in extracurricular activities. Giving your child a healthy play outlet will allow them to stay active and burn out some of that energy. **At Bright Kid Montessori House Extra Curricular Activities nurture the multiple intelligence of the children.** Extracurricular activities facilitate exercise and fun for preschoolers and kindergarteners.

BENEFITS OF MONTESSORI METHODOLOGY

FOCUSES ON KEY DEVELOPMENTAL STAGES

A Montessori curriculum focuses on key developmental milestones in children between the ages of one and half and six-years old.

ENCOURAGES CO-OPERATIVE PLAY

Children in Montessori classrooms, by the very nature of the environment, learn to respect one another and build a sense of community.

LEARNING IS CHILD-CENTERED

Montessori preschool students enjoy a classroom and curriculum designed around their specific needs and abilities that allows them to explore and learn at their own pace and on their own terms.

CHILDREN NATURALLY LEARN SELF-DISCIPLINE

The environment naturally teaches children self discipline, and it refines important skills like concentration, self-control and motivation.

CLASSROOM ENVIRONMENT TEACHES ORDER

The sense of order helps facilitate the learning process, teaches self-discipline, and caters to a young child's innate need for an orderly environment.

MONTESSORI TRAINED TEACHERS

Teachers in the Montessori classrooms are "guides". They are there to facilitate the learning experience.

PLAYGROUP

Age Group : 1.6 - 2.6 years

Duration : 3 hours per day

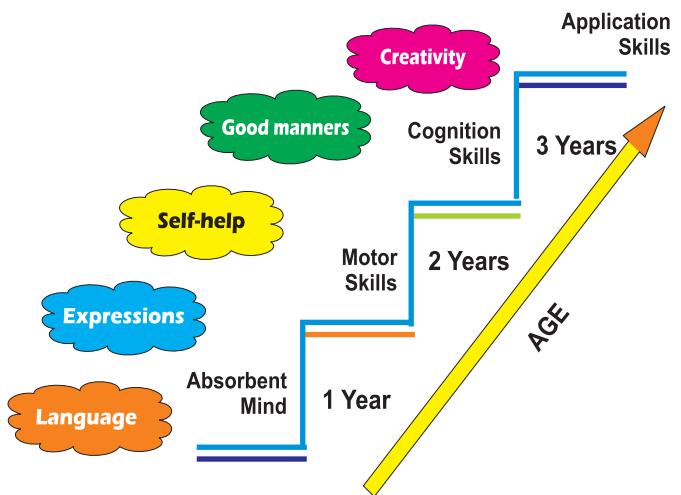

Our play group program focuses on nurturing the development of the absorbent mind, physical co-ordination and gross motor skills by offering hands on learning.

As the child grows it focuses on developing fine motor skills, perceptual & creativity skills. Thereby, making a toddler ready for stepping into academic and extra-curricular learning.

Our Play group or Toddler program is based on Thematic teaching for development of Language, Expressions, Self-help, Good manners and Creativity. Classroom materials include practical life items, sensorial equipment, puzzles, books, large muscle equipments. Outdoor environment provides free play at sand pit, riding toys, gardening activity and Splash pool activity during summer.

Key Areas of Development

- Gross motor skills and Fine motor skills
- Practical Life Skills
- Sensory based learning
- Rhythm and movement
- Spoken language
- Counting skills
- Social skills - Grace & Courtesy
- Play and Peer interaction
- Cognitive development
- Expressions of creativity.

MONTESSORI - I (NURSERY)

Age Group :	2.6 - 3.6 years
Duration :	3 hours per day

Montessori activities for the Montessori I (Nursery) group of children include Exercise of Practical Life that not only helps them to perform daily life activities independently but also gain control of movement - sorting, pouring, folding, rolling etc. by using scientifically designed Montessori materials. Sensorial activities allow children to see, touch and feel various physical properties of matter. Arithmetic activities introduce concepts of number, fun of counting and understanding the relationship between number names and quantities. Language activities such as phonics & writing skills are introduced to children through various hands-on processes like, tracing of sand paper letters, use of moveable alphabets.

Classroom activities start with patterning skills, colouring work sheets, joining dotted lines etc. for development of fine motor skills. Digital smart class

activities develop general awareness of age appropriate concepts of science and environment through class interaction by teacher. Children participate in Thematic activities, through role plays, story telling and show and tell all round the year. Moreover, daily Outdoor Playtime is a big attraction for all Bright kids.

Key Areas of Development

- Gross & Fine motor skills
- Communication skills
- Pre writing skills (Alphabet & Numbers)
- Cognitive development
- Maths & Numbers
- Phonemic awareness
- Life skills
- Grace & courtesy
- Creative expression through art, craft, role play & dance

MONTESSORI - II (LKG)

Age Group :	3.6 - 4.6 years
Duration :	3 - 4 hours per day

Objective of the Montessori II (LKG) program is to prepare children to perform age appropriate academic and extra-curricular activities meeting the requirements of various education board standards such as CBSE/ICSE or AMI (Association of Montessori International).

Classroom activities start with strengthening patterning skills, colouring work sheets, joining dotted lines etc. for refinement of fine motor skills of writing. It further builds on english conversation and class interaction skills, reading and writing, introduction of cursive hand writing, vocabulary development and formation of simple sentences. Also we cover general awareness of age appropriate concepts of science and environment through class interaction by teacher.

This group performs extensive Montessori activities. Montessori activities include not only refinement of Exercises of Practical Life but also perform various Montessori activities on Arithmetic, Language, Sensorial and Science . Interactive digital smart class activities make learning extremely enjoyable for the children.

Key Areas of Development

- Refinement of Gross and Fine Motor skills
- Communication skills
- Social skills
- Presentation and leadership skills
- Life skills development
- Writing skills
- Phonetic Reading
- Maths concepts of numbers and quantities
- Science and Culture
- Creativity - Expression through art & craft
- Music and movement

MONTESSORI - III (UKG)

Age Group :

4.6 - 6 years

Duration :

6 hours per day

Our Montessori III (UKG) curriculum meets the requirements of CBSE/ICSE/AMI. On language and literature front our program aims at developing the competence in talking, listening and becoming readers and writers with growing vocabulary and increased fluency to express their thoughts and to convey the meaning to the listeners. Using phonics, understanding the formation of words and thus sentences for the development of good writing skills in cursive handwriting is an integral part of language development.

This program covers development of pre-mathematical skills related to comparison, sorting, matching, ordering, sequencing and counting. Four basic mathematical operations are also introduced at the UKG level.

Environment science activities cover the knowledge and understanding of the world, people and features of the natural and manmade world. Foundations for historical, geographical, scientific and technological understanding will also be part of their learning.

Our program also enhances the development of physical control, mobility, awareness of space and skills in the indoor and outdoor games.

Exposure and opportunity is given to all the children to develop public speaking, stage exposure and creative development through art and craft activities which increases their ability to use their imagination and observational power.

Key Areas of Development

- PROFICIENCY IN COMMUNICATION SKILLS
- Proficiency in Reading and Writing skills
- Maths skills (comprehension of numbers, four mathematical operation)
- Concepts of Information technology
- Cognitive development of concepts
- Creative Expressions
- Confidence
- Social and civic awareness
- Scientific approach
- Logical and thinking ability
- Team building and cooperation

TECHNOLOGY ENABLED LEARNING & COMMUNICATION

SMART BOOKS

Each page comes alive! Experience a teacher anytime and anywhere! Now a teacher at home too!

A code for each concept! Each rhyme! Each amazing facts!

You just have to open a page of our books, and all the images, alphabets, words and many more come alive in a few seconds once scanned through mobile camera. Just imagine that a child can have a teacher anytime, anywhere!

Separate SMART book sets are available for each level Playgroup, Nursery, LKG, and UKG. Instructions are delegated in complete, appropriate and structured manner leveraging the teacher's knowledge and years of teaching experience.

And children definitely learn due to continuous and repetitive hearing.

BRILLA : MULTIPLE INTELLIGENCE APP

Brilla- an unique Multiple Intelligence development program for kids through our Mobile App. The app has over 100 activities for the child to do based on the 4 intelligence, these are:

MY BRIGHT BRAIN: A wide range of puzzles on shapes, fruits. Vegetables, etc which develops the child's logical ability in an interactive way.

BE BRIGHT: Allows the children to virtually dress themselves up for an occasion thereby developing their presentation and personality skills.

MY ANYTIME TEACHER: The feature which will enable the SMART Book. To view a lesson on the page of one of the SMART books, simply open the **Brilla** App, click on "MY ANYTIME TEACHER".

SOCIAL SMART: A wide range of puzzles and activities aimed at developing the child's communication skills.

Preschool children will grow up to a generation which is likely to use technology extensively to complement their education and skills. **Brilla** aims to not only to enhance multiple intelligence foundations for these young children but also to make them

BRIGHT CONNECT2PARENT MOBILE APP

more skillful in navigating through world of Technology / cloud platforms.

Bright Connect2Parents is an initiative to strengthen Teachers-Parents Communication by adapting the latest technological trends. We have made the process simple so that parents can get daily updates of their children. Most parents feel it is a hassle free and a great way to be connected through the mobile. This mobile application allows the parents to be connected with Bright Kid and access information related to :

Daily Academic Activity Updates

This includes Class Room, Extracurricular and Montessori Activities, Thematic Teaching as well as Smart Class Activities.

Home Practice

Communication

This includes feedback by the teachers.

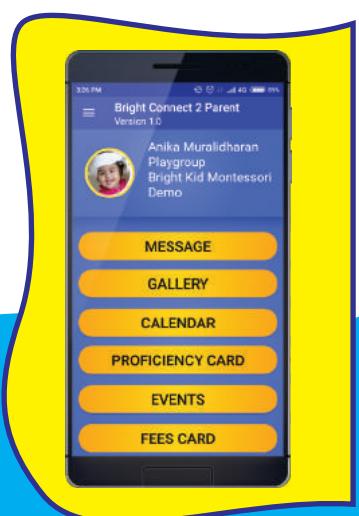

Absent Report

Message Bright Kid

Parents can message Bright Kid regarding their child or any other enquiry.

Comming up Events & Celebrations

Notifications of coming up events, activities and celebrations.

Learn to teach, teach to learn

SIMPLE, AFFORDABLE, ANYTIME, ANYWHERE COURSE CONTENT WITH PRACTICE CLASSES.

- World class Blended Education methodology with online video lectures on Montessori Pedagogy, Child Psychology & Class Management. Live virtual group discussions, excellent study materials and practice classes using wide range of Montessori materials.
- Placement assistance on meeting selection criteria.

ISO 9001:2015 CERTIFIED

MATHSUP™
Simplify Math... Multiply Score

BASED ON VEDIC MATH PRINCIPLES

- Designed to develop amazing mathematical calculation speed for school children and others with numerous online practice sessions.
- Useful for school students (grade V onward), teachers, aspirants of competitive exams CET, JEE, MBA/CAT, etc

**Exciting yet
easy to learn.**

Improves mathematical skills, numerical ability, logical reasoning and thinking aptitude.

Best in class Vedic maths content along with brain teasers.

Techniques explained very effectively by expert (Experienced IIT Alumnus)

Ample practice sessions & quizzes

Anytime Online access for reference and practice at home (1yr)
